For *Artboom: Celebrating Artists Mid-century, Mid-career*, browngrotta arts presents work by 32 artists, born between 1946 and 1964. They are Baby Boomers, the youngest have recently turned 50, the oldest have been creating art for more than 50 years. The artists, from 11 countries, were asked to submit work that is reflective; work that tells us where they've come from or where they hope to go; work that illustrates influences, roads not taken or thoughts of legacy and the like. Some have looked back while others reflect on where the journey has brought them, like Lewis Knauss, who says, "I am happier with chaos, the way I need to give up a bit more control of the outcome, flaws and in nature, the beauty of disaster."
